EASY TO ASSEMBLE

REPLACEMENT SIDE PANELS

Remove the visible white melamine side panel(s) of bottom and or top cabinet, and replace with panel(s) of the same finish you have chosen for the doors.

Replacement side panel - Top

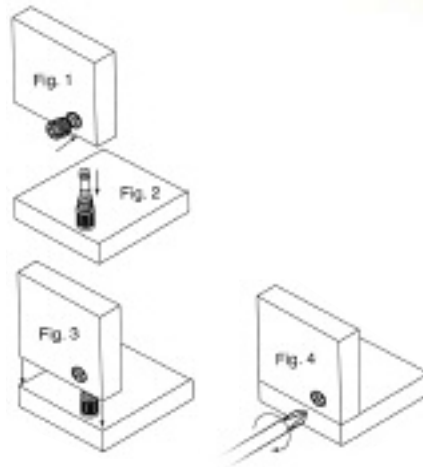

1. Discard white side panel.
2. Assemble with replacement side panel.

Replacement side panel - Base

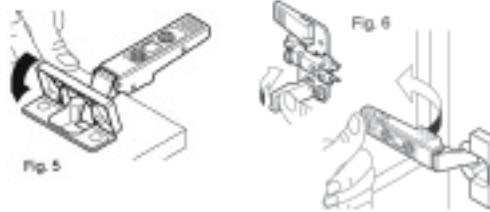

CABINET ASSEMBLY

1. Insert the cam lock in the designated hole of the horizontal panel. (fig. 1)
2. Insert the assembly dowels in the designated holes of the side panel (fig. 2)
3. Slide the side panel into the base panel ensuring that the assembly dowels are well seated. (fig. 3)
4. Once the two panels have been properly adjusted, turn the camlock a quarter of a turn clockwise to lock the two panels in place. (fig. 4)

HINGE INSTALLATION

1. Insert the hinge in the designated hole of the door panel and push towards bottom. (fig. 5)
2. Insert the assembly plate in the designated holes of the side panels of the cabinet and assemble them together by a simple snap. (fig. 6)

VERTICAL ADJUSTMENT

HORIZONTAL ADJUSTMENT

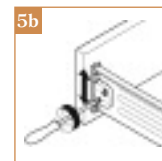

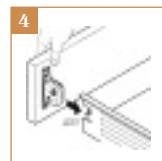

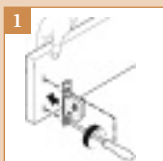

DEPTH ADJUSTMENT

DRAWER ASSEMBLY

1. Install the pressure bindings to the back of the drawer face and screw into place with the screws provided.
2. Install the bottom drawer panel to the sides of the drawer with the help of the predrilled holes.
3. Screw the back of drawer to the side rails.
4. Slide the two metal sides onto the binding until it locks into position.
